COLOURpyne combines colour and style with versatility and top quality performance.

The natural solution for you.

Practical, versatile and hard-wearing **COLOURpyne®** is a tough, scratch-resistant surface which can be used on cupboards, shelves, pantries and cabinets, storage units, bathroom cabinetry, laundry cabinets, wardrobes, general shelving, and much more.

Function and good looks

Melamine technology ensures high quality, durable panels available in a variety of colours. We extensively research colour to inspire your interior design. The COLOURpyne range features a palette of contemporary and classic prints from solid and special colours to authentic woodgrains.

Changing the look of your colours can be as simple as changing the surface finish. Choose from two finishes available in the COLOURpyne range – Velvet and Décor.

Surface finishes available

Velvet – a delicate eggshell surface
Décor – a lightly textured, orange-peel like surface.

Note: Not all colours are available in both finishes

E0 Credentials

All COLOURpyne colours are available on E0 substrate, to contribute to superior indoor air quality and a healthier work environment. Speak to your Carter Holt Harvey representative for more information on the benefits of using COLOURpyne E0.

Chain of Custody

Carter Holt Harvey uses PEFC Chain of Custody (CoC) certification to ensure that the vast majority of wood in COLOURpyne products is legally sourced from sustainably managed forests. Documentation is available upon request.

Substrate

COLOURpyne® is available in a number of sizes and substrates.

Substrate	Sheet Size	Nominal Finishes Thickness (mm)		
		16	18	25
Moisture Resistant particleboard	2400 x 1200 mm	•	•	•
Standard particleboard	2400 x 1200 mm	•	•	•
Moisture Resistant MDF	2400 x 1200 mm	•	•	•
Standard MDF	2400 x 1200 mm	•	•	•

Substrate	Sheet Size	Nominal Finishes Thickness (mm)				
		16	18	25	32	33
Standard particleboard	3600 x 1800 mm, 2400 x 1800 mm	•	•	•		
Moisture Resistant particleboard	2400 x 1800 mm, 3600 x 1800 mm	•	•	•		•
Standard MDF	2400 x 1800 mm	•	•	•	•	
Moisture Resistant MDF	3600 x 1800 mm, 2400 x 1800 mm	•	•	•		•

Some substrates, colours and sizes are made to order so longer lead times and minimum order quantities apply.

Restrictions on use

COLOURpyne should not be used in areas where it will be exposed to high moisture levels, for example, as wall linings for exteriors, for wet areas in regular contact with water, or for benchtops in kitchens and bathrooms.

Edge finishing

COLOURpyne board can be finished with Melamine or rigid edgetape.

Cleaning and care instructions

Keeping your COLOURpyne surfaces clean is easy. Regular cleaning simply involves wiping with a clean, damp cloth.

For spills and stains the most important thing is to catch the stain early. Wiping it with hot soapy water is the first thing to try. Never use abrasive cleaners, wire wool scourer pads, copper cleaner pads or sandpaper on your COLOURpyne surfaces.
